yeah contra shoot em up lives again looking forward for a sequel game of the year. Kinda hated this game at first, but after playing a bit more and getting good, the game became more fun and felt just like the older Contras.

Recommended to play on Easy mode on your first playthrough. I don't care how good you are at video games, this game is no joke in terms of difficulty.. Absolutely great game! Very Contra-like (It's a Contra Clone afterall). It has a great soundtrack, feels great to control, and of course, is challenging! I would highly recommend this to any Contra fan.
